make a great colour  
combination

Figgjo is the only porcelain manufacturer that we know which offers a bespoke design service on so few pieces. It allows almost any operator the possibility to have a buffet layout which is unique to them. For those who know Figgjo porcelain, they will know it is not only one of the most stylish but also probably the most durable porcelain ranges on the market.

For as few as 6 of the larger pieces, you can be one of the increasing number of operators taking advantage of this amazing possibility to have their own unique designer porcelain.

We are proud to be able to exclusively offer Figgjo to you. If you want to discuss how we can bring this to your table, please get in touch for details.

We offer so much more than we can possibly put in one catalogue.

Ask for details on our downloads to see the entire offering

BE CREATIVE**

This is enamel but not as you have seen before. These are really eye-catching pieces.

**CREATE HEIGHT**

Most functional areas will either need to create height for the display or if in a cold well, may need a base. This forms the architecture for each layout

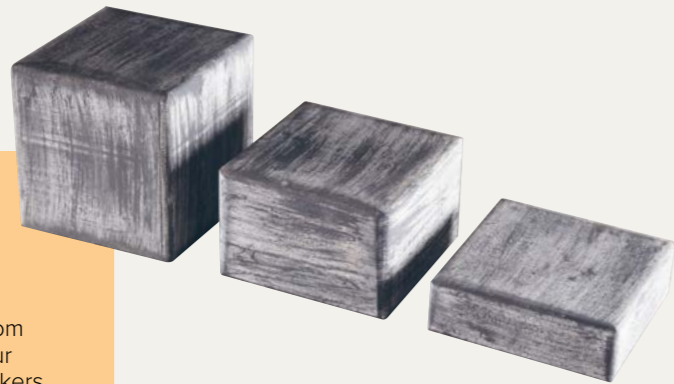

**BE UNIQUE**

All Risers/Bases/Boards made from wood can be customised to your requirements by our own woodworkers. We can add any finish, whether it is natural oil/wax, stain, paint or metallic paint.

We can also embellish items with metal inlay i.e. nickel/brass/copper. We also make our own metal legs in a variety of finishes. Please ask for details.

CHEFONOMY IS OUR COLLECTION OF ALL THINGS OUTSIDE THE REALM OF STANDARD KITCHEN EQUIPMENT. AS TECHNOLOGY BECOMES MAINSTREAM, THIS SELECTION WILL EVOLVE TO SHOW YOU THE PRODUCTS THAT STAND OUT AS BEING TRULY INNOVATIVE

NITRO TEPANS

NITRO TEPANS

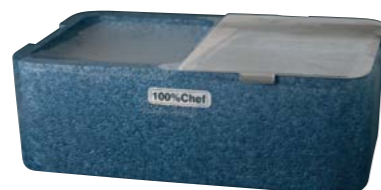

- Easy to use
- The Mini Tepan is a great tool for creating frozen lollipops, caviar pearls and more
- The Salva-G is great for large-scale banqueting

*Mini Teppan Nitro*

MINI NITRO TEPAN  
T70099 12 x 12cm - 300ml

The use of Liquid Nitrogen in the kitchen and restaurant can be an exciting addition for the creation of new textures, effects and dramatic dining experiences.

The Mini Nitro Tepan is a safe, easy-to-use accessory which can be used at the table to create frozen lollipops, caviar pearls, etc. For large-scale banqueting volume, use the Salva-G Nitro Tepan in the Kitchen.

SALVA-G NITRO TEPAN  
T70119 27 x 21cm - 3.5L

Container with double basin, dual griddle and 'fry' function. Great for high volume use.

CRYO GLASS BOWLS

- Double-chamber glass bowls.
- Made from borosilicate glass
- Almost unbreakable.

CRYO GLASS

DEWAR FLASK  
T70120 3 Litre

NITRO COULANT

Fill the moulds with foam, inject with a filling of your choice by using the Air Kit, then dip into Liquid Nitrogen & make amazing shapes that reveal a creamy centre.

We work closely with a company who are specialised in the provision of Liquid Nitrogen. They can provide and deliver storage containers on a rental basis; provide full risk assessment on your behalf regarding usage and storage.

*Cryo Bowl*

Thin, double-chamber glass bowl for use with Liquid Nitrogen. Its handle is great for grip and movement, allowing a variety of uses in the restaurant. Made from borosilicate glass, it is almost unbreakable.

CRYO BOWLS  
T70032-18 D 18cm - 1000ml  
T70032-13 D 13cm - 500 ml  
T70032-08 D 8cm - 300 ml

*Cryo Glass*

Individual, double-chamber mini bowl. Perfect for preparing ice-cream or sorbet made with Liquid Nitrogen in the restaurant, or for making molecular cocktails or stunning event showpieces.

CRYO CONTAINERS

SPHERIFICATION

Master the art of spherification with our specialised range of kit, including the spherificator, reverse sphere, caviar box and caviar accessories. Get in touch if you would like more information.

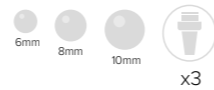

Reverse Sphere®

REVERSE SPHERE DISPENSER KIT  
**T70553**

Reverse Sphere® is a Dispenser Kit developed to facilitate the creation of small liquid spheres by reverse or direct spherification with minimal effort. It creates three different diameters liquid Spheres.

This system allows to create perfect no hardening liquid pearls in advance, and to provide pearls for mise en place with perfect flavour.

Spherificator

SPHERIFICATOR  
**T70548**

Spherificator is the only automatic spherificating machine in the market. Automatically doses spheres of up to 4 different sizes 4, 6, 8 and 10 mm, producing over 100 spheres per minute. This system allows to prepare in advance high quality liquid caviar or pearls, without the risk of them hardening.

The system is basically designed to work with reverse spherification technique and obtain high efficiency in banqueting and catering business.

COOKING PAPER

FATA PAPER **T06611** 50m Roll

**Carta Fata Paper**  
If someone told us there was a container so versatile that products could be cooked in it with or without liquid, which can be put in the microwave or the oven, in water, in boiling oil or on a grill, we might think it was magic.

Nothing could be further from the truth: Carta Fata is a transparent cooking paper, developed in association with the Italian chef Fabio Tachella, which can be made into small bags for products that can be subjected to temperatures of up to 230°C.

This resistance to heat makes it possible to cook healthy, light, tasty dishes - since the aromas remain inside the bag - in short times and conserving the full nutritional value of the food.

Now available in new ready made vacuum packed bags

**SWISS COOKING SYSTEMS**

Advanced Cooking Technology

The Hugentobler Swiss cooking systems corporation, established in 1996 has become a recognised brand for advanced cooking technology. They specialise in fully integrated cooking systems, including Swiss Stoves, Combi-Steamers, 'Freeze'n'go, Vacuum Packing & Sous Vide equipment & banqueting equipment. They have constantly been at the forefront of product development, the Hold-o-Mat being the most widely known individual product.

The Hold-o-Mat has been popular in the U.K., for a number of years, providing an oven that keeps foods, including meat, warm, while preserving its quality and allowing for the precise control of temperature and humidity.

Capacity 208 kg from +90°C to +3°C in 90 minutes or 12kg from +90°C to -18°C in 4 hours

**T11101** FRIGOJET® 5 X 1/1 CUBO

Dimensions 784 x 800 x 900mm  
Capacity 20 kg from +90°C to +3°C in 90 minutes or 12kg from +90°C to -18°C in 4 hours

**Safe, fast and intelligent quick-cooling with FrigoJet**

Thanks to 'freeze'n'go' technology, you can preserve freshly prepared food for up to 10 days. With FrigoJet® there is no formation of ice crystals due to the 'shock-freezing' at -40°C. You can achieve industrial quality blast freezing with a small-scale unit. A core-temperature sensor allows supervision of the cooling process.

There are several models available, from the 5 x 1/1/ Cubo compact machine to 14 x 1/1 machine. Here we are listing the smallest version, which can fit anywhere. Please ask for details of other versions.

- Safe, fast and intelligent quick-cooling with FrigoJet
- Preservation of freshly prepared foods for up to 10 days
- Professional Shock-freezing at -40°C with no formation of ice crystals
- Core temperature sensor allows control of the cooling process

**Hold-o-mat® 411 The Swiss original. Now even better.**

The Hold-o-mat 411 controls temperature and humidity like no other low-temperature, production and warming oven – namely with an accuracy of +/- 1 degree. 24 meters of the finest heating cable guarantee an even temperature – even if the door is opened several times. The Hold-o-mat 411 has a clever dehumidification system that keeps au gratin dishes crispy.

**MORE SPACE**

4 x 1/1 GN: the extra guide makes for a higher capacity. The individually adjustable lateral rails means that you can now make even better use of the space in the Hold-o-mat 411.

The new, optional core temperature probe is magnetically coupled and can be stowed away safely when not in use. It can be connected at any time and is detected automatically.

- Precise temperature control thanks to 2 x PT 1000 and sophisticated software
- Stackable, can be installed in all ranges and commercial kitchens
- Door hinge on left or right (can be changed by user)

**EXCALIBUR DEHYDRATORS**

The leaders in food dehydration technology

EXCALIBUR 4900 STANDARD 9 TRAY DEHYDRATOR (BLACK)  
**T73001** 483 x 432 x 312mm

EXCALIBUR 4900 STANDARD 9 TRAY TIMED DEHYDRATOR (BLACK)  
**T73002** 483 x 432 x 312mm

The 9 tray 4900 model has a 7" fan and heating element mounted on the rear wall. Cool, dry air is sucked in through the back of the food dryer, heated up and then evenly distributed across each tray. During the dehydration process, the warm air removes the moisture from the food and this moist air is pushed out through the front and replaced with dry air from the back. Horizontal airflow provides even drying, eliminating the need for rotation of the trays during dehydrating.

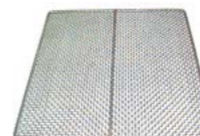

EXCALIBUR 10 TRAY DIGITAL DEHYDRATOR  
**T73003** 483 x 432 x 312mm

Dehydrate large quantities of food with this 10 tray digital dehydrator. Its stainless steel interior and exterior and 15" stainless steel trays allow for quick, easy cleaning. Also comes with a removable tray, 99 hour timer, two-time, two temperature.

The MenuPilot™ application, coupled with streamlined corporate management of menu data via the MenuCommand™ web portal, reduces dependence on hardware and increases emphasis on platform. Together, these facilitate the centralised management and communication of critical menu data and training materials to foodservice operations. DayMark also delivers companion hardware with the Matt85™ direct thermal label printer and Android tablet, facilitating on-demand production of shelf-life, food rotation and complex grab & go product labelling.

ELECTRONIC COOK & HOLD OVENS AND DRAWER WARMER

Innovative and efficient foodservice equipment solutions

- Cooks by time or by probe to sense internal product temperature and automatically converts from cook mode to hold mode once the set parameters have been reached.
- Eight programmable menu buttons stores favourite recipes into memory (cook/hold/time/probe set points).
- Clear, easy-to-read LED display indicates cook time remaining.
- When cooking by probe, the oven maintains a record of the highest and lowest temperatures sensed by the food probe to assure foods cooked to the temperature.
- Oven includes the patented SureTemp™ heat recovery system to assure immediate compensation for any heat loss whenever the door is opened.
- Oven hoods, outside venting and fire extinguisher systems are not required (in most areas)

BLAST CHILLERS

- Simple to Operate
- Reduces Food waste
- Preserves quality, appearance, taste and nutritional value
- Get in touch for more information

Why use a Blast Chiller Freezer?

Blast Chiller Freezers use fiercely driven cold air to rapidly pull down the temperature of hot food so it can be safely stored either in chilled or frozen form for future re-heating. Allowing food to cool without refrigeration can be extremely dangerous as it will allow harmful bacteria to develop during the long cooling process.

Cooling hot foods in a fridge already containing chilled food is also very dangerous as it will raise the temperature of all the food in the fridge and pose a food safety risk. Any kitchen which wants to have pre-cooked, chilled food as a major part of the provision must have blast refrigeration.

Key benefits:

- Simple to operate
- Reduces food wastage
- Improves staff efficiency and productivity
- Preserves quality appearance, taste and nutritional value

MORAKNIV®

MORAKNIV

- Traditional hand-crafted knives made in Mora, Sweden

NEW

RANGE

Classic 1891

Since the 17th century knives made in Mora have been used by people all over the world. The Mora knife has become one of the most famous symbols of Sweden and over the years it has evolved from a simple everyday concept to the established brand Morakniv®. Morakniv knives are produced in Mora which gives them total control over the manufacturing process. A Morakniv is designed to stay extremely sharp. The steel of the blade is heat treated in a secret process which ensures that every knife has a blend of qualities (sharpness, strength, flexibility etc.) which is tailored to suit its purpose.

NEW

RANGE

Core

Beautiful essentials: The seven knives in the Core collection have been specially developed and painstakingly tested to deliver excellence in the kitchen. Each knife is beautifully complimented with a robust richlite handle in our house Savernake colour scheme. Here is a range of knives that form the very core of what Savernake do.

**MASAMOTO KNIVES**

High quality Japanese Chef knives

“Japanese Knives have an incredible heritage and these Masamoto knives truly are the real deal. All great craftsmen have a set of tools that become part of who they are and these knives are exactly that.”

**Paul Ainsworth**

RANGE

**VG Series**

THE BEST OF THE MASAMOTO WESTERN KNIVES.

The VG series is Masamoto's highest-quality western knife, made of high-carbon stainless steel with added Molybdenum and Vanadium. Each knife is carefully sharpened by hand, making the blade extremely sharp and hard for long-lasting high-cutting performance. The handle is a Duracon, with stainless steel bolster, which makes it dishwasher friendly, durable and anti-bacterial.

With such high-quality craftsmanship, it is easy to understand why VG knives are used by top chefs, worldwide.

“You get so used to using the same knives every day, because they almost become an extension of your arm; that you forget that there might just be something better out there. This really is a great knife.”

**Paul Hood**

RANGE

**AT Series**

Masamoto's practical selection of Western knives.

The design of the AT series is identical to that of the VG series, made with high-carbon stainless steel with added Molybdenum and Vanadium. Each knife is sharpened by hand, making the blade extremely sharp, hard and rust resistant. The Pakker handle, with stainless steel bolster is durable and bacteria resistant.
